Our Wound Care Clinic provides specialized treatment to facilitate the healing of chronic wounds, such as diabetic foot ulcers, lower extremity venostasis ulcers, poorly healing surgical wounds, and chronically infected wounds.

The Clinic is run by a staff of specially trained and certified wound care nurses under the supervision of a physician with special training in wound care. Treatments include special dressing applications, topical pharmaceutical compounds and surgical and non-surgical debridement (removal of dead, damaged or infected tissue).

The Wound Care Clinic collaborates with Day Kimball Healthcare's Physical Medicine and Rehabilitation, HomeCare, nutritionist, and diabetes management services as necessary.

Accessing Wound Care Services

Appointments at the Wound Care Clinic require a referral and are by appointment only. Referrals may be made by primary care physicians, hospital-based physicians and surgeons.

Once a referral is made, patients may call the Clinic Monday through Friday, 9:00 a.m. to 5:00 p.m. to schedule their first appointment. Appointments are available on Tuesdays, Wednesdays and Fridays from 12:00 p.m. to 4:00 p.m.

Billing and Payment Information

Billing for wound care clinic services will come from Day Kimball Hospital. Please check with your insurance carrier for details about your specific coverage, copays, deductibles and any prior authorization requirements.

If you have questions about your Day Kimball Hospital bill or need help paying for care, please contact our team of financial counselors at (860) 963-6337 (at the prompt, enter option 2). For more information visit daykimball.org/billing.

Day Kimball Healthcare offers integrated, comprehensive care close to home. To learn more about all of our specialty medical services and convenient locations, visit daykimball.org/specialtycare.
