

Your Anesthesia During Labor & Delivery

There are many questions expectant mothers have regarding their anesthetic care. Some of these questions include:

- What is an epidural?
- Will the epidural take away all of my pain?
- What kind of anesthesia is given for a C-Section?

These and other questions will be answered by viewing the video we've prepared for you.

On the day of your delivery you will have the opportunity to speak with your anesthesia provider about pain management options.

Our anesthesiologists and CRNAs are provided by North American Partners in Anesthesia (NAPA), one of the largest anesthesia groups in the U.S. Founded in 1986, NAPA has one primary mission: deliver an exceptional experience for every patient and every client, every day.
