

DIAGNOSTIC SERVICES

Diagnostic services are a critical component in the continuum of care. That's why our diagnostic imaging and laboratory services utilize the latest technologies to provide you with the highest quality testing and most efficient results reporting possible.

Multiple locations across northeast Connecticut offer convenient access to a full range of the most advanced testing possible, while our electronic medical records system ensures that your results are instantly shared with your care team as soon as they're available.

Our certified and dedicated diagnostics professionals, accredited facilities, and integrated network ensure that you'll receive the highest quality, most efficient and reliable testing available, in a convenient and comfortable environment.

Day Kimball Healthcare offers integrated, comprehensive care close to home. To learn more about all of our services visit daykimball.org.

Laboratory and Blood Draw

Day Kimball Healthcare provides top quality laboratory and blood draw services at four convenient locations across northeast Connecticut. Our lab services are accredited by The Joint Commission, the College of American Pathologists, and the American Society of Clinical Pathologists.

Our laboratory at Day Kimball Hospital is open 7 days a week and processes all laboratory tests from across our system - over a half-million tests per year. And our blood draw locations at the Day Kimball Healthcare Centers in Danielson, Putnam and Plainfield also offer experienced phlebotomists and convenient access to the full range of testing offered at our Hospital.

Our board-certified associated physicians from a contracted service provide exceptional diagnostic and interpretive services, with subspecialties including hematopathology, molecular pathology, surgical pathology, gastrointestinal pathology, cytopathology, gynecologic pathology, transfusion medicine, and more.

Our Comprehensive Services

- **Comprehensive chemistry testing**, which analyzes blood and other body fluids. Examples of chemistry tests include blood tests to measure cholesterol, glucose or medication levels, urinalysis, and analysis of semen or fecal samples.
- **Hematology testing**, which analyzes the amount and function of blood cells and plasma. Common examples of this type of testing include the Complete Blood Count (CBC) and coagulation testing.
- **Microbiology testing** for the detection of bacterial, fungal, viral and parasitic infections
- **Transfusion medicine** - the blood bank at Day Kimball Hospital provides top-quality blood transfusion services for hospital patients
- **In-home blood draw services**, when ordered by a doctor

Our Integrated Network Provides Fast, Reliable Results

No matter which of our service locations you visit for your labwork, our integrated system means that your care team will have access to your test results as soon as they're available, through our electronic medical records (EMR) system. This results in a shorter wait time for you to receive results, and also helps to eliminate errors and redundant services so you can better control your health care costs.

Accessing Lab and Blood Draw Services

A physician or practitioner's order is required for all testing. No appointment is necessary; all tests are performed on a walk-in basis. However, be sure to follow any special pre-testing instructions provided by your doctor, such as fasting or taking medication a certain number of hours before your test.

Billing and Payment Information

Please check with your insurance carrier for details about your specific coverage, copays, deductibles and any prior authorization requirements. You will receive a bill from Day Kimball Hospital for the lab testing portion of your service, and a bill from either University Pathologists or another associated pathology provider for the professional test interpretation portion. If you have questions about your Day Kimball Hospital bill or need help paying for care, please contact our team of financial counselors at (860) 963-6337 (at the prompt, enter option 2). For more information visit daykimball.org/billing.
