

WOMEN'S HEALTH

OB/GYN

As a woman, you deserve healthcare that's in tune with your unique needs — and delivered by people who understand them. That's why we've created a truly comprehensive and coordinated system of woman-centered care that covers the full spectrum of healthcare needs through every phase of a woman's life.

Our women's health professionals are dedicated to providing our full range of services in a manner that simplifies the healthcare aspect of your busy and multi-faceted life. We've even designed the facilities at our Burdick Family Birthing Center and women's health facilities to be exceptionally warm, welcoming and soothing—helping to provide you with a care experience that's both comprehensive and comfortable.

Day Kimball Healthcare offers integrated, comprehensive care close to home. To learn more about all of our women's health services and convenient locations visit daykimball.org/women.

We're committed to providing exceptional obstetrics and gynecology (OB/GYN) care for women based on the latest research and utilizing the most recent technologies.

Our obstetricians, gynecologists, advanced practice registered nurses (APRNs), and physician assistants (PAs) provide expert and compassionate care that's focused on the individual needs of each woman and integrated with the rest of our network of care. They work together to ensure that your care is seamless and complete. And our women's health facilities are designed so beautifully, you might forget you're seeing a doctor.

We partner with you to provide expert, personalized, woman-centered healthcare services for every stage of life, including

- annual exams
- birth control
- breast exams and mammography
- infertility
- maternity care, from pregnancy confirmation through labor and delivery
- menopause management
- minimally invasive gynecological surgery, including laparoscopic and vaginal hysterectomy
- in-office procedures such as Novasure endometrial ablation to reduce the occurrence of heavy menstrual bleeding and tubal ligation (having your "tubes tied"), including placement of the Essure non-surgical sterilization device
- Pap smear tests
- STD screenings

In addition to our general OB/GYN services, maternal fetal medicine services are also available for our obstetrical patients, providing both routine ultrasound services for uncomplicated pregnancies as well as consultative services for high-risk pregnancies requiring specialized care.

Billing and Payment Information

Billing for OB/GYN office visits will come from Day Kimball Medical Group. Please check with your insurance carrier about your specific coverage, copays and deductibles as well as any prior authorization requirements. If you have questions regarding your bill, need assistance with health insurance or need help paying for care, please contact the Day Kimball Medical Group business office at (860) 928-9270.
